

THE TASK: Identify Tree Lichens Based On Their Morphology

find a lichen colony on a tree

inspect macroscopically

inspect using lens

1: The EDUCATOR Way

Expert points to colony and shows details to each student

2: The HOLUCATOR Way

Hololens recognises bark pattern of tree & loads one of three predefined learning activities (*Details, FindSame, NameSpecies*)

live@Bürkliplatz, Biodiversity excursion, 2018-03-20

Grab a Hololens & try HOLUCATOR on our «concrete trees»
